MF Eco Machine Certification System Registry (Press Machine) Registered: September 15, 202					
Certified registration no. & registered product name		MF-P025 Servo direct controlled hydraulic press		Product scope	Servo direct controlled hydraulic press
Registered name of corporation		Kurimoto Ltd.		Certified model	HR4-10SP
Production time of reference model		March, 2013		Reference model	HT-10
Requirements and environment factors		Evaluation items	Evaluation criteria	Evaluation results and/or remarks	
(1) Essential requirement					
Energy saving	Energy consumption	Reduction ratio	Reduce more than 20%		67%
				Bas	ed on JFMA standard
(2) Selective requirement					
Energy saving	Energy consumption	Reduction ratio	Reduce more than 20%	50% Certified product adopted the swing motion of 90°to 270°. For other conditions, reduction of power consumption per unit is applied at the time of loading, based on JFMA standard.	
Resourc e saving	Setting area	Reduction ratio	Reduce more than 10%	0	
	Compactificatio n	Number of component	Reduce more than 10%		0
Minimum selective requirement		More than 3 items		3 items	
(3) Recommended requirement		Name of function/device	Summary of environmental load reduction		
iub sib roo div and iva and	ergy saving, rability, long life, playing /	Valveless control	Increase the hydraulic efficiency by servo direct control		
	ntrolling vironment info., pration/noise d emission ir/soil)	Regenerating control	Reduce the hydraulic heating by servo direct control		
		Minimum rotation control	Reduce the pressure holding energy by servo direct control		
Ĺ					
Minimu	ım requirement	3 items or more		3	items
